

\\ ZONE C SEATING

PROJECT#E5095

\ \ PROJECT OVERVIEW

LPL undertook the works to the IDL seating area to remove, dispose and repositioning of existing seating and all necessary making good. The existing seating was to be replaced by a STAL seating product. The works included unloading, storage, distribution, installation and making good of seating procured by the employer inclusive of all mechanical and electrical works. LPL acted as principle contractor will be responsible for coordination of the logistics (including liaison with furniture supplier) for moving furniture out of / in to the IDL.

Services undertaken;

REMOVING AND STRIP OUT
BREAKING OUT AND CHASING
ELECTRICAL
SPRINKLERS
FIRE ALARM
SEAT INSTALLATION
TILING TO FLOOR
FIRE STOPPING
REMOVAL OF FIDS
I.T

LPL worked within the dynamic International Departures Lounge and provided stakeholder management plus logistical support for a number of different departments; retail, terminal management, baggage, engineering and Mitie to name a few.

LPL successfully installed 1000 seats, of which, 400 were powered, within the compressed time frame of 8pm-4am.
