

5.1 CDM 2015 Statement

Loppingdale Plant Limited t/a LPL Construction Services has produced this document to provide guidance and assistance to our designers and detailers, to ensure compliance under the Construction (Design and Management) Regulations (CDM) 2015.

This also demonstrates LPL's commitment to implementing the requirements of the CDM Regulations as part of any design requirements that may fall within the scope of works of any contract works undertaken.

LPL Construction Services, with reference to the CDM Regulations 2015 in the construction industry will:

- Meet the requirements of the Construction (Design and Management) Regulations 2015.
- Reduce risks and hazards on site during construction work through care and action at planning and design stage of the process.
- Ensure our designers and subcontractor supply chain are aware of their duties and responsibilities under the CDM Regulations 2015.
- Ensure that our designers and subcontractor supply chain are educated and trained in identifying hazards and taking appropriate action to remove, reduce or manage the risks.
- Ensure the flow of information from our designers and subcontractor supply chain, transport partners and site teams is managed correctly so that they have the correct information for the safe installation of our works.
- Ensure that hazards are highlighted in a clear and easy to understand format
- Ensure that Senior Managers attend CDM Courses to maintain understanding of requirements for compliance in the construction industry and impart knowledge to all personnel involved.
